## **DETAILED ACTION**

## Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

keep -

1. Group I: claims 19-21, 25-26, 28, 29-32, 33-36 drawn an adjuvant composition (Examiner interprets claim 18 as claim 36. Appropriate correction is advised).

2. Group II: claims 22-24, 27 drawn to a human or non-human animal vaccine.

3. Group III: claim 37, drawn to a vaccine administered either concurrently or coadministered with any of the antigens selected from any M. heamolytica with an adjuvant composition comprising any ceftiofur.

4. Group IV: claims 38-40, drawn to a method for enhancing, increasing, upwardly modulating, diversifying or otherwise facilitating an immune response in an animal to an antigen.

ceep 5.
-oyeter 6.

- 5. Group V: claim 41, drawn to a method of preventing a disease comprising the step of administering the adjuvant compositions or vaccines in claim 19.
- 6. Group VI: claims 42-43 drawn to a method of preventing a disease comprising the step of administering the adjuvant compositions or vaccines in claim 22 and claim 24.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The technical feature of Group I is adjuvant composition comprising one or more antimicrobial agents. The technical feature of Group 1 is anticipated by Sato Yukio et al 1999 Cellular Immunology Vol. 197 No. 2 pgs. 145-150. Sato Yukio et al teach an

re whe hat the clams should be 10/595,784 Art Unit: 1645

adjuvant composition comprising one antimicrobial agent (14-member macrolide antibiotic) (see pgs. 145-150).

- 1. The technical feature of Group II is a human or non-human animal vaccine.
- 2. The technical feature of Group III is a vaccine administered either concurrently or co-administered with any of the antigens selected from any M. heamolytica with an adjuvant composition comprising any ceftiofur.
- 3. Group IV is a method of for enhancing, increasing, upwardly modulating, diversifying or otherwise facilitating an immune response in an animal to an antigen comprising administration of an antimicrobial agent to an animal
- 4. Group V is a method of use of Group I, an adjuvant composition.
- 5. Group VI is a method of use of Group II, a human or non-human animal vaccine.

Groups II-VI lacks unity with Group I because they do not have the same technical feature.

## **Election of Species**

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

If the Applicant elects Group IV, the Applicant is required to elect a combination of single individual species from Group IV listed below.

Species-antimicrobial agent;

Please select an antimicrobial agent from the group listed below.

Group of antimicrobial agents: penicillin v, cloxacillin, ampiciltin sodium, ampicillin, amoxiciltin, pivampicitlin, carbenicittin, piperacillin, ticarcillin, ureidopenicillin, dzlocillin, temocillin, nafcillin, aminobenzylpenicillius, mecillinam, carboxypenicillin, cephradine, cephalothin, cephapirin, cefazotin, cephalexin, cefaclor, cephaclrine, cefadroxil, cefoperazone, cefoxitin, cefliofur, ceftizoxime, ceftriaxone, cefuroxime,

Application/Control Number:

10/595,784 Art Unit: 1645

cefquinome, cefotaxime, ceftriaxone, ceftazidime, clavulanate-arnoxicillin, clavulanateticarcillin, sulbactam-ampiciUin, piperacillin-tazobactam, amikacinb, apramycin, gentamicin, kanamycin, neomycin, spectomycin, streptomycin, tobramycin, lincosamides, pleuromutilium, chloramphenicots, macrolides, lincosamides-lincomycine, clindamycin, pirlimycine, pleuromutilins - tiamulin, valnemulin, chloramphenicol, thiaphenicol, florfenical, macrolides - erytba'omycin, tylasin, spiramycin, tilmicosin, roxithromycin, azithromycin, clarithromycin, ketolide, tulathromycin, oxytetracycline, doxycycline, tetracycline, tetracycline hcl, oxytetracycline hcl, minocycline hcl, doxycyctine hyctate, sulfamethazine, trisulfapyrimidine, sutfamethoxazole., sulfadimethoxine, sulfadiazine, sulfisoxazole, phthatylsulfathiazole, salicylazolsulfapyridine, silver sulfadiazine, enrofloxacin, orbifloxacin, difloxacin, danofloxacin, marbofloxacin, sarafloxacin, spectinomycin, imipenem, meropenem, cefotetan, cefprozil, loracarbef, cefdinir, cefpodoxime, ceflibuten, ceftozoxime, cefepime, dirithromycin, dictoxacitlin, oxacilli.n, mezlocitlin, nalidixic acid, ciprofloxacin, enoxacin, lomefloxacin, norfloxacin, ofloxacin, levofloxacin, sparfloxacin, alatrofloxacin, gatifloxacin, moxifloxacin, trimethoprim, aztreonam, quinupristin, fosfomycin, metronidazole, nitrofurantoin, rifampin, vancomycin, (2R,3 S,4R,5 R, 8R, 10R, 11 R, 12S, 13 S, 14R)- 13-(( 2,6-dideoxy-3-Ccmethyl- 3 -O-methyl-4-C-((propylamino)methyt)-ct-L-ribo-hexopyranosyt)oxy-2-ethyl-3,4,1 0-trihydroxy-3,5,8,10,12,14hexamethyt- 11-((3,4,6-trideoxy- 3-(dimethylamino )-t3-D-xylo- hexopyranosyl)oxy)- 1ox a~6-azacyclopentadecan- 15 -one, and (3 R,6R,SR,9R, 10S, I 1 S, 12R)- 11 ((2,6dideoxy-3-C-methyl-3-O-methyl-4-C-((pro pylamino)methyl-a-L-ribohexopyranosyl)oxy)- 2-(( t R,2R)- 1,2-dihydroxy- 1 -methylbutyl)--8-hydroxy-3,6, 8,10,12-pentamethyl-9-((3,4,6-trideoxy- 3-(dimethylamino)-[3-D-xylohexopyranosyl)oxy)- I-oxa-4-azacyclotridecan-t3-one.

Species-antigenic agent;

Please select an antigenic agent from the group listed below.

Application/Control Number:

10/595,784 Art Unit: 1645

Group of antigenic agents: Pasteurelta multocida, Mannheimia haemolytica, Haemophilius somni, and Pasteurella haemolytica.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nina Archie whose telephone number is 571-272-9938. The examiner can normally be reached on M-F 8:30am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's acting supervisor, Shannon Foley can be reached on 571-272-8975. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
